So, we all know exactly what happens on day one and two, it Rocks, remember? But you've got time now, you are in Africa now, and you don't know when you'll be back again, so let me tell you about Day Three.

Day three will start off absolutely nothing like your average day at home. Yes, you guessed it, we start real early, early is good, especially in the bush and it is your last chance to see the BIG 5... The safari runs exactly like day one and two, but we head off in different directions through the park, so you get to see more landscapes, a bigger variety of fauna & flora and, you guessed it, MORE ANIMALS.

What to bring along: Cameras, sunscreen, jacket for early mornings and evenings, swimsuit, insect repellent and a torch.
